The inevitable Evolution

Attractive design and extraordinary versatility make it special, unique in the world of upright refrigerated display units.

Available in two models, **free-standing** and **built-in**, elegantly meets contemporary needs in terms of furnishing and consumer products.

Thanks to its display compartment, entirely in tempered glass with external screen-silk printing, innovative shelf holder system and LED lighting, Luxor Double is an expression of light and maximum content visibility. The sophisticated superbly designed structure and dimensions allow for display with total confidence, optimising the space available! The Softmotion pneumatic flapdoor opening system in tempered glass reduces energy consumption, increasing flexibility of use and offers optimum display value.

Tailor-made elegance

Luxor Double built-in was created for the unique and stylish presentation of any environment. The built-in modules offer maximum versatility in the design of a shop.

The features of the Double Luxor range, combined with the distinctive design of the lower compartment, allow individual models to be fully customised.

Built-in lower structure without side and back panels; height-adjustable feet.

ESSENTIAL DETAILS

Visibility from any angle

Display compartment in tempered glass with LED lighting, complete transparency and full visibility also of the product from above.

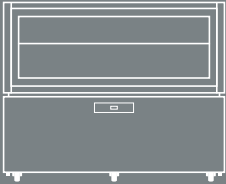

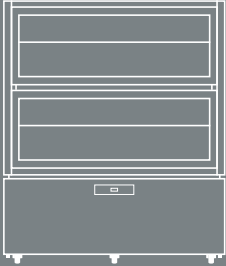

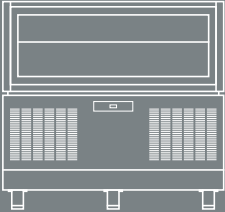

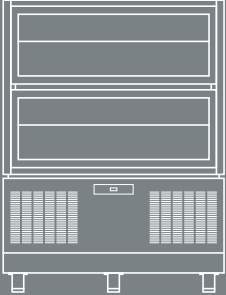

Flexible use

Softmotion pneumatic flapdoor opening system.
